ROLLA, MO., FRIDAY, MARCH 10, 1934

NUMBER 19

## Campus Poll Yields Emphatic Yes

### Dr. John A. Decker of Stephens Featured At Theta Tau Banquet

#### GUEST SPEAKER AN AUTHORITY ON FAR EASTERN AFFAIRS

A large crowd is expected for the Theta Tau banquet this Sunday, March 12, at the Edison Long College Inn. The banquet and the featured speaker, Dr. John A. Decker, are expected to attract Miners, their friends and wives, to the hotel at 7:00 P. M.

Though for twenty years Dr. Decker has been Professor of International Relations and Chairman of the Social Studies Division at Stephens College, his activities have not been confined to this country. He has just returned from a 22,000 mile tour by air of the Far East. Dr. Decker has made extended visits in Peking, Nanking, Hankow, and Hongkong, interviewing hundreds of prominent leaders, both Chinese and foreign. In a recent year he made a trip across war-torn Indo-China to visit the famous 11th Century ruins of Angkor Wat. He toured the remote country districts of Siam in the same manner, and flew the length of the Dutch East Indies in small local planes. His conclusions on Eastern problems are based upon extensive, recent and first-hand observations. His tour recently to the Far East was not for the purpose of tourist sight-seeing, but for fact-finding experience.

As a result of World War II the United States has had to assume heavy responsibilities in connection with the United Nations, the Far East, and Western Europe. Our present education of program concentrates on the teaching of American national problems, and fails to give our students a real understanding of the problems and the culture of the Far East, the Near East, and the non-European world. Dr. Decker's subject, "Let's Educate for One World," is a plea for teaching the real problems Americans face in the modern world—by an educator with twenty years experience in the field.

Tickets for the banquet on Sunday may be bought from Theta Tau members at \$1.25. This Sunday, March 12.

#### ATTENTION INDEPENDENTS

The Independents' organization is making an effort to arrange a party and dance after the Saturday St. Pat's dance.

Arrangements have been made for a hall and music. All that is necessary to make final plans is an assurance that sufficient interest in the project is present. At the Independent's meeting Monday night at 7:00 p. m., in Room 103, Old Chem. building, plans will be discussed, and unless we have a good turnout of men interested in the party the whole project must be dropped.

So let's all come to the Independent's meeting and get in on the ground floor.

"So you want to kiss me. I didn't know you were that kind." "Baby, I'm even kinder than that."

#### APO Pledges Five New Members

Last Thursday evening Beta Omicron Chapter of Alpha Phi Omega pledged five new members. President David MacDonaid called the meeting to order and then asked the prospective pledges to come forward. He then proceeded with the pledging ceremonies, and when over he welcomed Harrison R. Lockyer, Jr., Charles Anderson, Thomas Simpson, Harold Hucks, and Jerry Lynch as pledges into Alpha Phi Omega.

Following the ceremonies a business meeting was held.

#### MSPE HOLDS ELECTIONS, HEARS PROF. LLOYD ON TODAY'S WORLD AFFAIRS

Tuesday night, Feb. 23, the Student Chapter of the Missouri Society of Professional Engineers was privileged to have as its guest speaker, Prof. Sam Lloyd, who gave a very interesting and thought-provoking talk on "The Engineer and Politics." The members and guests who braved the cold and rain to hear this timely talk were well rewarded for their effort.

Prof. Lloyd pointed out that, if this nation is to exist with its present freedom, it is imperative that Engineers get interested in politics and make that additional effort which is necessary to injecting some scientific methods into the solution of our many economic problems. He further charged Engineers with the duty of exerting control over those things which they have produced.

The following men were elected to fill vacancies: Vice-Pres., Roschke, Sec., Peligian.

We would like to suggest Juniors and Seniors that now is the time to get interested in developing yourself professionally. This organization is yours and can accomplish as much or as little as you want it to. If you are interested in these political issues, if you wish to be more than just a technician; if you wish to stay out of labor unions and their control over your inventive and advancement; and if you are troubled by companies offering you \$225.00 per month and would like to do something to raise the compensation for your efforts then let's get organized and get the job done. These advancements will not be handed you, they require hard work and the full support of all Engineers. We are fifty years behind now, let's get going.

#### NOTICE

All organizations planning to enter a float in the St. Pat's Parade are requested to telephone Ed Aschmann at 804-R. Floats will be judged in the following manner: Theme, 40 per cent; originality, 20 per cent; general appearance, 20 per cent.

The entries will form at the railroad depot at 12:15 on Friday, March 17.

How does someone explain the fact that some girls with the most straitlaced figures after the most regulations

#### Tickets Now On Sale For St. Pat's Dance

Tickets are now on sale for the costume and semi-formal dances sponsored by the St. Pat's board. The price of admission for both nights is \$1.50, stag or drag. There will be no pre-sale of tickets for one night only, and those wishing to attend only one of the two nights may obtain tickets at the entrance. The price of a ticket for one night is \$4.75, stag or drag. It is doubtful whether tickets will be sold for both nights at the gate, and those who wish to attend both nights are advised to purchase their tickets ahead of time.

Tickets may be obtained from any member of the St. Pat's board or from any of the following local establishments:

Turkey's Soda Shop  
Scott's Drug Store  
Gaddy's Drug Store  
Campus Soda Shop

All tickets will be sold through these sources alone.

The fascinating strains of Lawrence Welk and his sparkling symphony will provide the musical background for both nights, and, as in the past, a full night of entertainment is guaranteed to all. As a parting thought, remember that the success or failure of these affairs depend solely on your cooperation and participation.

### Internationally Famous Troupe To Perform Tues.

Ruth Mata and Eugene Hart.

International dance artists and troupe who present an evening of classic theatre in the auditorium of Packer Hall on the evening of March 14, saw America first as dancing comedians from an internationally famous European troupe when they were in Zurich, Switzerland. After four international tours, Mata and Hart, whose real names are Ruth Kruger and Paul Ullrich, decided to enter the American business on their own hook, and remained in this country in 1933 after the expiration of the troupe had re-

turned to Europe.

A background of classic training in many dance forms belongs to Ruth Mata and Eugene Hart. But the spark that sets off their brilliant and highly individual art comes from their own light-hearted viewpoint. These two are remarkably alike in thought and expression, which they say makes their marital and professional partnership an easy partnership for both.

They both have a great love for their profession, which is itself a guarantee of an enjoyable evening for the Miners.

#### Tau Beta Pi Selects Spring Pledge Class

Tau Beta Pi, National Scholastic Honor Fraternity, last Thursday announced that its Spring pledge class had been selected. The announcement came after a speaker for prospective members in the chemistry room. Composed primarily of seniors, many of whom are graduating, the class is larger than most previous years.

Selections were made on the basis of scholastic achievement and personality as well as the fraternity reputation. Eligible men include the upper one-eighth of the senior class, and the upper one-fourth of the junior class. This Spring there is one candidate for the women's badge given by the organization.

It is a tradition for the fraternity and a credit to the school that the projects of each pledge class are dedicated to the betterment of the school through campus improvements. The major achievement to be completed this Spring was begun last year and carried over. Many students have speculated as to the purpose of the post planted in the ground on the Twelfth and First corner of the campus. By the end of the month, that will be the base of a large and attractive sign stating that this is the campus of the Missouri School of Mines.

Other projects to be completed by the Tau Beta Pi pledges include a draining of paint for the scoreboards and benches erected on the athletic field by previous classes. The school bell is finally to be given a clapper, and some other odd jobs will complete the work.

#### AIEE-IRE BRINGS WESTINGHOUSE V. P. HERE MARCH 14

Mr. H. M. Muller, Assistant to the Vice-President of Westinghouse, will speak on the opportunities in engineering at 4:00 p. m. on March 14, in Parker Hall. Mr. Muller, who formerly in charge of the student training program for Westinghouse, has taken special interest in the problems confronting young engineers. The topic of his speech will be, "Look at Your Opportunities Objectively."

This talk, jointly sponsored by the AIEE-IRE and the MEE, is open to everyone. Because Mr. Muller's topic is of vital concern to all in engineering, everyone who has a free hour from 4 to 5 is urged to attend.

A note of special interest to all EE's: All 4 p. m. EE classes will be excused to enable the students to hear Mr. Muller.

#### CHARLES ROSELLE GUEST AT BSU BREAKFAST SUN.

All Baptist Students and their friends are urged to come to the Fellowship Breakfast Sunday morning, 7:30 a. m., in the church basement. If you have never attended one of these breakfasts, there is lots of joy, friendship and good food in store for you. Mr. Charles Roselle, Baptist Student Secretary for the University of Missouri, is coming down with a group of students. Following the breakfast, there will be a program with Mr. Roselle being the principle speaker.

Weather permitting there will be a picnic lunch after the morning worship service. Remember, it's Sunday morning at 7:30 a. m. The BSU will be looking for you.

#### GRINNELL PRESIDENT CHALLENGES STUDENTS TO BE RADICALS

Grinnell, Ia.—(I.P.)—A challenge to college and university students and their families to "think and live dangerously" was issued here recently by President Samuel S. Grinnell of Grinnell College. President Grinnell declared: "I find fault with the complacency which seems to exist among students and faculty in most colleges and universities in the United States. Educational institutions should be 'dangerous' environments in which young people live during the formative years of their lives."

"It is proper for young people to be radical, restless and discontented with the status quo and eager for great changes occurring in a social structure. It is unnatural for them to be complacent, passive, and primarily concerned with security and willing to allow the older generation to be more radical than they are."

"Unless we can develop in the American college student an impatience with the status quo a passion for change for the better, and a heightened critical judgment as to the direction in which social changes move, we are responsible for the educational institutions of this country and have failed miserably. At the present time it appears to me that we are not meeting our responsibility as fully as we should. You live young students are asking their voices to be heard in protest."

### Twenty Per Cent of The Student Body Responds

#### ASCE MEETING HEARS DR. KRAMER FROM MO. DIVISION OF HEALTH

Missouri Division of Health addressed the members of the ASCE and its guests on Wednesday, March 1. The subjects which were incorporated in Dr. Kramer's interesting talk included health regulations and water supply.

Dr. Kramer first discussed some of the regulations as given in the Health Manual. Standards are set up in the manual for such things as sewerage systems, water purification, milk sanitation, etc. These regulations are backed up by the laws and constitutions of the various states.

To emphasize the need for water in our world, Dr. Kramer gave some very impressive facts concerning this important commodity. The statements made that the brain is 80 per cent water, and that water would cover the earth to a depth of 2 miles if the land surface were spread out evenly seemed to verify the idea that the world would be a pretty hot place without water.

With this idea in mind, Dr. Kramer next discussed standards formulated on drinking water by the U. S. Public Health Service. Various minerals such as arsenic, iron, zinc and phosphorus must be controlled very carefully in drinking water because of their dangers to health, or because of their objectionable odor or taste. Dr. Kramer also told of the discovery of ion exchangers which will eventually take the place of nitrile and lime soft methods now used for water softening.

In his closing remarks, Dr. Kramer gave an explanation of the new methods which are being used to design water treatment plants. It has been found that chlorine can be used as a coagulant as well as to destroy bacteria and viruses. This and other discoveries have led to a more flexible design.

#### SNAKES TO PLAY HOST TO JACK COTTER TRIO AT ANNUAL TEA DANCE

Saturday afternoon, March 10, Sigma Nu will hold its annual Tea Dance at the chapter house. Refreshments will feature Grandma Hucker's Russian Tea and cookies. It has always been one of the fine occasions during St. Pat's in recent years, and it is expected to be no less exciting this year.

Music for the dance is to be supplied by the John Cotter Trio. This Trio has been playing at various spots in St. Louis for some time, and is currently playing at the John Cotter in St. Louis. Jack Cotter himself does the vocalizing and the Trio play an original style of music, including everything from jazz to ballads.

Hugh McFadden, chairman of the social committee, claims the dance will be a great success, and will probably be one of the "highlights" of the St. Pat's celebration. As we plan to have a good number of gallons of tea, we expect every snail and snail of our house to be filled with Miners and their dates.

#### Final Vote Stands At 317-91 For Admission

The Student Council has been attempting to obtain a consensus from the student body upon the question of admitting Negro students to the Missouri School of Mines and Metallurgy. The Miner has been cooperating with the Student Council by placing questionnaires in the preceding two issues of the Miner.

As a result of the combined efforts of the Miner and the Student Council, 400 students completed the questionnaire; 317 voted in favor of admitting Negroes to MS&M and 91 students cast negative votes. Thus, 19.42 per cent of the student body participated in this poll, which certainly is not a representative percentage, but is a definite improvement over past polls and elections.

The deadline of March 8, was placed upon the submitting of the ballots in order that the Student Council could complete the results before March 27. The date March 27, is significant in that the Board of Curators and the Registrar of the University of Missouri must present their decision to the Supreme Court at that time.

Dean Wilson presented the results of MS&M poll to the Board of Curators yesterday, at their meeting in St. Louis.

The Student Council of the University of Missouri conducted a similar poll in the fall of 1929. The results obtained were 4154 to 1947 to favor the proposal of the Board of Curators of the University to admit Negroes to those divisions and faculties not adequately provided in Lincoln University.

The Student Council of the University then went on record as supporting the opinion of the student body, and stated the reasons for their action.

Perhaps the number of students participating in the poll would have been greater, if the voting had been preceded by a thorough educational campaign upon the subject. However, it was felt that the Religious Empowerment program arranged by the Inter-Faith Council would arouse the students to the "Four Freedoms" of every human.

#### APO DRIVES AT EMORY; CONSERVES MUCH POWER

Atlanta, Ga.—(I.P.)—The efforts of Alpha Phi Omega service fraternity on the campus at Emory University to reduce utility costs may well save the University "thousands a year," according to Mr. Gilbert McLennan, director of housing here. He was high in his praise of the work of 32 APO pledges who put up signs and posters all over the campus reminding students to "conserve heat, lights, and water," and to "turn off lights."

The program was begun in the latter part of November and the results of it have already proved very successful. Mr. McLennan said he declared the practice of turning radiators on and then raising windows and asked that those who use classroom buildings at night conserve by turning off the lights when they leave the buildings. APO pledges have also located leaky radiators and water fixtures.

## THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1943 at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

Subscription Price 75¢ per Semester. Single copy 1¢ (Postage Activities of Students and Faculty of M. S. M.)

## EDITORIALS

My boss used to say, "If at first you don't succeed, try another way you are doing it wrong." True words were never spoken. For years, this paper has endeavored to stimulate student interest in the point of expression with little results. It seems that we just looked in the wrong direction.

Every man seems to have an opinion, the trick is get him to express it. Since the recent report on the trials of two negro boys seeking entrance to the school, this paper has evoked some of this expression. It is certainly a good thing and should be continued at any cost.

The good thing that all students are talking about now is of a more serious nature. Four hundred students felt moved to answer the Student Council Poll concerning the fate of these boys. This represents almost twenty per cent of the enrollment, and almost four times the expected turnout.

More gratifying still is the result of the poll, numbering about 78 per cent of the voters in favor of the measure. The views of Robert Vannum who suggested that the poll be taken would seem to be justified, that Miners are as progressive and clear thinking as the liberal arts students of the University.

It now seems that everyone is in favor of the admission of negroes to the University of Missouri except the men who set its policy. Their opinions on the matter are still not known, and until this case is decided they will remain so.

Once before, this measure was passed by one house of the State Legislature only, to be stopped in the other. Well, money is said to be the prime mover of government and people today, and when it becomes a realization that it costs three times as much to educate a negro under the present system, proper action will be more quickly taken. Let us hope that

a pigeon hole will not send this move prematurely.

## THE POT O' GOLD

The St. Pat's Board seems to have started a local fund for fund raising with their annual benefit show. Since that event several years ago, the University Dances have tried it, and now the local P-T-A. is taking a hand.

This being the principal form of amusement in Rolla, it is not surprising that the idea be encouraged. A crowd is always assured whether it be for some special purpose or not. As in the case of the infamous mezzotint, the man who thinks up a better method should have a virtual gold mine.

It is too bad that the APO chapter couldn't follow through on its plans to present a variety show for this purpose. The funds collected were to be for a charitable purpose, and they surely would have been in quantity.

The gist of this plan was that each fraternity should present a short program at a variety show open to all students. The crowd would select a winner by casting one vote for each ten-cent donation made. The winner to receive a leg of "boiling beverage," and the rest to charity.

It is a fine plan, and if present conditions prohibit its being carried out, it is certainly good material for some future campaign.

## A CAMPUS JOKE

There are eight graduating

departments in this school turning out some of the best engineers in the country. Each department is naturally concerned with the work of their respective students, and does all possible to promote their scholastic welfare.

Although engineering is a profession of specialists, a rather broad knowledge of scientific matter is necessary to be a good member. Thus an interchange system has been established with the idea of introducing students to the curriculum of other departments. This is basically a fine and workable idea, however, it has not carried over in the spirit under which it was established.

These classes are approached by student and teacher alike with the idea that it is something forced upon them by the curriculum committee, and the result is wasteful of time, energy, and engineering ability.

One of the frequent arguments among students is over the importance of the relative branches of engineering, with each man righteously defending his own interests. The final outcome is always a realization that though the requirements of each are distinct, in specialization, it is only through mutual co-operation that progress is attained. This is the great truth that is not expressed in the exchange courses offered to our students.

They have in reality become standing jokes among the stu-

## The Marriage Ring

By Georgia Robinson

Last weekend it seems as if everyone enjoyed the nice warm weather which greeted Rolla with its presence. Many a couple could be seen out strolling without a care, just taking their time. We are hoping the warm weather will stay until St. Pat's which is exactly one week from today. . . .

**Work Basket**  
About 20 girls gathered at the home of Mrs. Louise Clark at 821 Salem Avenue last Tuesday evening, March 7th, for the scheduled Sewing Bee. At the close of the meeting delicious refreshments were enjoyed by all. It was announced that Mrs. Dave Robinson, No. 361 Stuart Ave., would be the next hostess on March 21st. Anyone wishing to attend are more than welcome and are urged to call their hostess beforehand.

**The University Dances**  
Met last night, Thursday evening, March 9th, at 8:00 in Parker Hall. At the beginning of the meeting a program was given which included Mrs. Peggy Peppers playing some piano selections, and a musical trio made up of Mrs. Peggy Little, Mrs. Nancy Scudell, and Mr. Bill Simpson. Mrs. Evelyn Deane provided the singing of the evening, and at the end of the program Mrs. "Fritz" Frederick Gilman, who is from Germany, talked on her homeland. . . .

**Mothers' Club**  
Will hold their next meeting at the home of Mrs. Pearl Tapp, on 1809 Vichy Road, at 8:00, Tuesday evening on March 21st. All members are urged to attend, plus any wives who would like to join. . . .

**"Drama" Club**  
A meeting was held last Wednesday evening at the home of Mrs. Jean Sears at 1008 Elm Street, after which light refreshments were served. At that time they chose a play, "Ladies Alone" with the following characters: Margo, Lois Tookling, Peggy, Jean Sears, and Nora, Mary Minnie, and are planning on presenting it at the

Dances' meeting in April. The play is open to all student wives and also any housewife desiring to attend.

**Farewell Party**  
A group of ten couples consisting of students and wives attended a farewell party in honor of Wanda and Hal Smith (Aham of Jan. '36), last Saturday evening, February 25th, at their home on 169 South Rolla St. A pleasant evening was had by all, during which time everyone played cards when they weren't dancing; meanwhile enjoying refreshments of beverages, pretzels, and potato chips. . . .

**Get-To-Gether**  
Theresa and Elsie Farrow, 609 Park Street had a supper party last Saturday evening, March 4th. Mr. and Mrs. Dave Robinson, after which they played bridge. I might add that there is nothing better than some of Elsie's home cooking. . . .

**Here and There**  
Many a student wife can be seen trudging to work every day to M. S. M. where they are employed somewhere on the campus. . . .

Many a student wife can be seen trudging to work every day to M. S. M. where they are employed somewhere on the campus. . . .

See you after St. Pat's. Don't forget to phone in all of your news to 606 during the daytime and 975-W in the evening.

When women go wrong, men go right. . . .

Exercise kills germs but we can't find out how to make the damn things exercise.

## LETTERS TO THE EDITOR

1300 Pine St.  
Rolla, Mo.  
March 4, 1934

The Editor  
Missouri Miner.

Dear Sir:

I write this in reply to the WHITE MINER (?) who featured in your editorial of March 3, 1934, and to compliment you on your brilliant footnote to his biased letter.

Mr. White Miner—and I use the term white liberally—may I first remind you of your extreme cowardice in not signing your biased collection of provocations of Feb. 27, 1934 (which incidentally occurred in or was taken verbatim from one of the local newspapers where the signature was also absent).

I should next like to bring to your attention that there are some serious rotten apples based on nationalities, which are used in reference to WHITE people by others as ignorant and as prejudiced as yourself. ("Dago," "Kike," "Polack," etc., etc., etc.). I daresay that if you were referred to by one of these terms and were regarded because of being a member of one of many nationalities you would cry prejudice from the rooftops. Remember, this is what you are doing in the Negro-yelling "Nigger" and harping the road to his success.

When you look today into the dunes and find that they are filled largely with Negroes, remember you, Mr. White Miner, and others like you—little people with black minds and over-also vocal chords—put the Negro there and are trying to keep him there. Why? You can't give me any logical reason, can you?

Let me now inform you that the Negro whom you wish to segregate is a citizen of the United States of America. Hear that! He is an American. I don't hear you complain about foreign students, yet you wish to exclude a fellow American. Mr. White Miner, anyone who wishes to do that is as low that he must look up to see the underside of a crawling snake.

When you hiss the Negro, Mr. White Miner, remember, only three things hiss a snake, a goose, and a fool. Now won't you please sign your name in the next issue of the Miner so we can see which one you are?

Yours truly,  
J. R. Sweeney

Rolla, Mo.  
March 4, 1934

Editor, Missouri Miner:  
I wonder if the letter signed "White Miner", which appeared in the last issue of the Min-

er, was written by the same anonymous coward who wrote a duplicate for the Rolla paper and signed it, "A Reader"? Or is it possible the White Miner is so ignorant to write his own letter and merely copied it from the local news?

The White Miner wishes to know if there is only one side to the issue. There are two sides. The side in favor of admitting Negroes, because they cannot be barred by people who believe in democracy and the Christian religion; and the side that often pays lip service to the American ideal, but votes for no admission, because of a prejudice, based on fear and ignorance.

I have heard that a certain social organization voted as a body against admitting Negroes. If this is true, it would prove a number of negative articles, denouncing such organizations as undemocratic, and as breeding places for prejudice, are correct.

More power to Elmer Bell and George Everett Harris in their endeavor to enter the engineering profession. They will undoubtedly encounter hardships brought on by the prejudice of a few students and housewife, but there should certainly be profitable opportunities for them on graduation, and their success will make easier the path for others of their race to follow.

Harry I. Dyer  
Rolla, Missouri  
March 7, 1934

Mr. Roger Neidel  
Editor, Missouri Miner  
Rolla, Missouri

Dear Editor:

An engineering school? A certain prof, asked for his screwball tests, topped all his previous efforts last week in a "mashing" test he selected as THE survey on which, as given, was 100 per cent correct. His delectable line of reasoning was: "Of course it won't over-rect, but since a lot of you guessed the right wrong answer, it will stand as I have it. Anyone who let it show him is just too smart for his own good."

An engineering school, with its high regard for truth, facts, and accuracy? Take another guess. This, too, aside from the fact that the test "got out" in advance and the class was as full of phony high grades as Ole Shanty is dead.

(Editor: May I remain anonymous? Graduating this spring is one of my fondest dreams right now.)

## Pi K A Wins Second Straight Intramural Basketball Crown

### Defeated Only Once During Entire Season

The fast-breaking Pi Kappa Alpha basketball team rolled to its second straight intramural basketball title by downing the Frosh 51-28. Glen Wilson was high point man with 14 points. Wilson has been a consistent scorer this season, scoring 143 points in eighteen games. This represents an average of slightly under eight points a game, which is a lot of baskets to make in a 24-minute ball game without taking into the fact that Glen has been plagued all season with weak ankles.

The Pikers suffered only one defeat all season. A very good Wesley Foundation Team beat them 24-19. A fast-breaking team is sometimes hampered by a team using a zone defense. This was true of the Pi Kappa Alpha team this year. The only teams that even gave them scores were either zone defenses or variations of the zone.

Six men carried the weight of the Pikers attack this season; but Debeck, Wilson, Beach, Grimm, Costello, and Schachert had very capable replacements in Bauer, Smith, Tuttle, Dressler and Green.

The Pikers were very consistent all season as their record will show. They scored 467 points as compared to 291 points scored by their opponents. If it had not been for the sportsmanship that they displayed in most of their games by not playing their first five all games, the scores would have been even more lopsided. For instance in their last game of the season, Monday night, against the Frosh they had a chance to break the intramural scoring record. They were leading the Frosh by a score of 30-8 at half-time. The reserves went in the second half and still they almost broke the record. It is hard to say what the score would have been if the regulars had played the whole game.

A girl can be gay in a classy coupe.

In a taxi she can be jolly. But the girl worth while, is the one who can smile When her date takes her home on the trolley.

The economics professors asked the little co-ed what she thought of the Taft-Hartley Bill. Her answer—"I think it definitely should be paid."

—Daily Reveille

"I'm entered in two contests—for the most beautiful back and the other for the most beautiful bust."

"Aren't you excited?" "I hardly know which way to turn."

"Daddy, a boy at school said I looked just like you."

"That's nice. What did you say?"

"Nothing—he was bigger than me."

K.A.

—Leaving—

Ben Douglas, who until last week was assistant football coach and head basketball coach at the School of Mines, has accepted a position as varsity assistant at Iowa University, at Ames, Iowa. Douglas replaced Dwight Haskett last fall as Coach here, and worked with Gale Bullman on the football staff this past year, as well as coaching the basketball squad.

### Brought Miners Out Of Cellar In His Only Season Here At MSM

#### ST. LOUIS U. DOWNS MINERS AGAIN 52-23

By Frank Marquis

The M. S. M. outscored padlocked the door on the 1949-50 swimming season after dropping their final meet to undefeated St. Louis University swimmers, 52-23.

The losing the Miners received was highlighted by the placing of four new St. Louis events on the record board at Jackling Gym Pool.

#### Darbin High Point Man

Darbin rang up 12 points for the St. Louis swimmers. He remained undefeated in the 100 yard free style in 1:02, shaded M.S.M.'s Don Malachuk in the 60 yard free style in 1:11 to tie the existing pool record and then anchored the St. Louis free style relay team.

#### Vose Wins 220

The Miners altogether tallied eight first places in the nine events. The Miners' solitary individual triumph was by veteran Bill Vose in the 220 yard free style in 2:24.5.

One of the most significant St. Louis wins was that by McDonald in the 200 yard breast stroke. He claimed in about three yards to the good over miner Max Hanner in 2:44.5, hanging the third defeat in nine tries on the miner's nose.

#### McKenna Shatters Record

Going like a steam engine in recent weeks, Bill Vose swam one of the best 440 races in his career when he was not touched by inches by Jim McKenna of St. Louis. The Miner speedster forced McKenna during the entire race, as there was never a lost between the two swimmers. To shatter his old record of 8:17, which he held, McKenna swam his last college swim set the new pool record of 3:14.4 which was the fastest time ever swum by the St. Louis swimmer.

#### Fellows Defeat Blues

St. Louis' Fellows 140.8 in the 150 yard back stroke, which he defeated Miner George Bloom back down the record of 1:47.2 established by Van Est of Washington University the previous week.

The 200 yard medley relay proved also a St. Louis victory when the trio of Fellows, McKenna, and McDonald, teamed up not only to win, but also to shatter the pool record in 2:44.4. In ending the season the defeat was the Miners' fifth against three wins, thereby holding just above the 4000 level.

#### Results

300 yard Medley Relay, won by St. L.: (Fellows, McDonald, McKenna). Time: 3:14.4 — New Pool Record.  
220 yard Free (Vose (MSM), 2-Quinlivan (St. L.), 3-Beverage (MSM). Time: 2:24.5.  
60 Yard Free: 1-Darbin (St. L.), 2-Malachuk (MSM), 3-Calvin (St. L.). Time: 1:11 — Tie Pool Record.  
Diving: 1-Thacker (St. L.), 2-Hochberger (St. L.), 3-Smith (MSM). Points, 230.7.  
100 Yard Free: 3-Darbin (St. L.), 2-Quinlivan (St. L.), 3-Malachuk (MSM). Time: 1:02.  
150 Yard Back: 1-Fellows (St. L.), 2-Bloom (MSM), 3-Taylor (MSM). Time: 1:47.2 — New Pool Record.  
200 Yard Breast: 1-McDonald (St. L.), 2-Hanner (MSM), 3-

Ben Douglas, assistant football and head basketball coach at the Missouri School of Mines, has resigned his position here and has accepted a position with the University of Iowa football coaching staff.

Douglas becomes the third M. S. M. coach to move up to higher collegiate conferences in the last three years. Al Schaefer, former head coach at Cape Girardeau is now head football coach at Iowa State University. Tommy Boyle, former head coach at Springfield, is now assistant coach at Kansas State University. Douglas is the first to be moved into the big ten conference competition.

Ben, now 40 years of age, graduated from Grinnell College in Iowa in 1931. After one year of coaching at Greenfield High in Iowa, he moved on to Cornell College in Iowa for a year. He then played pro-football with the Brooklyn Dodgers in 1932 and then came to Napoleon High in St. Louis from 1934-1940. While at Napoleon he developed Paul Christman, who later was an All-American at M. U.

From 1940-1947 (except for three years in the Navy), Douglas coached at Grinnell College

in Iowa. From 1947-1948, he coached at Colorado College in Colorado Springs, Colorado.

He joined the M. S. M. staff in 1949 and became assistant football coach and head basketball coach. His basketball team here at M. S. M. won 7 and lost 12 this season.

Ben will be assistant to Leonard Hadenberger, new university coach at Iowa University.

Perry Gill, assistant coach at North Carolina State, has wired Gale Bullman that he will be here to assist the Miner Football Mentor in the spring practice session. Gill was here before the war, and was also assistant at North Carolina University for a time.

We of the sports staff would like to express our appreciation, on behalf of the student body, to Coach Douglas for the job he did this past season here at MSM. Conditions were not favorable to the development of a good basketball team; studies took quite a lot of the boys' time, and semester grades knocked back out of an otherwise good squad, but Douglas never gave up hope of winning that next game. For this attitude he has won the respect of players and fans of this area alike, and it is with regret that we watch him leave. A man of Ben Douglas's caliber is a credit to Athletics and the Coaching Profession.

LOOKING IT OVER

Seeing as how the trend in intra-mural sports is starting to turn to the rough side of the picture since boxing and wrestling are coming into the limelight April 5, 6, and 7, it seems appropriate to dedicate an article to the cause. In my narrow little mind it seems futile to try and break someone's head with your head, or try to break the floor with your back, but, as the old saying goes, "every one is their own champion."

During the past years the injuries have been few and far between, but, two years ago a regrettable accident occurred in which a fellow suffered a fatal mishap. As in all sports, things of this sort are liable to happen but there are ways and means to try and alleviate the situation. All accidents do not require medical attention but in sports of this sort it is always better to be prepared than "to be sorry." Two years ago there was no doctor present which caused disquieting remarks aimed at the school.

Last year a doctor was present at all the matches, though on several occasions the matches had to be detained due to tardiness. But that has no bearing on the problem. Let's make this year better and make sure the doctor is again present. To further the cause, give all participants a thorough examination. We like to see good matches, not slaughters.

Rather (MSM). Time: 2:44.5.  
440 Yard Free: 1-McKenna (St. L.), 2-Vose (MSM), 3-Beverage (MSM). Time: 3:14.4 — New Pool Record.  
440 yard free style relay won by St. L. (Quinlivan, McDonald, McKenna, Darbin). Time: 4:12.8 dress

### Miami U. Registrar Discontinues Mailing Of Semester Grades

Coral Gables, Fla.—(I. P.)—Mailing of grades to students each semester has been discontinued by the registrar's office at the University of Miami. This move was necessary because of the hundreds of envelopes returned in the past office each semester because of incorrect local addresses.

Up to this time, grade copies were mailed to both the student and parent if the student was registered as a non-veteran, and to the student only if he was a vet. However, grade copies will still be mailed to the parents of non-vets, the new ruling stated. Under the new plan, students will have to stop by the registrar's office to pick up a copy of their grades. Each week the Registrar, K. Malcolm Deal, will announce in the "Official Notice" section of the student newspaper which grade copies are available.

These students registered as veterans who will not be here when grades are distributed, it was pointed out, must stop by the registrar's office in person before they leave. Non-veteran students who will not be here will usually have the parent's copy available as they need not stop by. Seniors who have graduated will continue to receive photostatic copies of their complete record. These copies are mailed to the student's home address.

### Twenty-Five Football Lettermen Eligible For Spring Training Grind

March 27th will mark the beginning of Coach Gale Bullman's annual spring training program. Here all former members and any new ones will be put through a rigorous program for physical fitness and also to work out winning plays for the 1950 football season. This program will be carried on for four weeks and climaxed by three inter-squad games to be played on April 6, 12 and 20. These games should furnish an idea of the type of team the Miners will have for 1950.

During two of the four weeks training personnel, James P. Gill, a former coach at M. S. M. and former line-coach at K. C. U., will be here to assist Coach Bullman in putting the boys through their training. Coach Gill will make his stop at Rolla before reporting to his new position at S. C. U.

Also on hand to make the spring practice a success will be Assistant Coach "Chet" Barnard, Professor Coach Ralph Stillman, Roy Beard, and Bill Coolbaugh.

Should last year's captains and right backs, and Coolbaugh, last year's center, meet again members of the 1949 M.I.A.A. championship team. These men will work with the new material and are qualified to pass on a few pointers to the new prospects.

If the spring practice is completed successfully, the 1950 squad roster will consist of the following men: Left Ends, Buddy Morris (M), James Tietens (M), Gjelstein, and Holcomb; Left Tackles, Bob Weibel (M), Leibel, Beverage (M), Dave

Van Pouts (M), and Jack Truman (M), David Anderson (M), Left Guards, Dick Boerzeman (M), David Anderson (M), Captain for 1950, Gene Frazer (M), and Neil Conrad (M), Centers, Dudley Blanche (M), and Roger Schwegel (M), Right Guards, Gerald Wilson (M), Dick Thurman (M), John Moscard, and Fred Major, Right Tackles, Jack Thelus (M), Bill Uls, and Jim Akers, Right End, Gene Kennedy (M) and Charles Kinnell.

In the backfield at quarterback are Alden Williams and "Wild Bill" Kneading. Full backs, Ed Kwadai (M), Don Dewling (M) also serving as Captain for 1950, Lester Halmuth, Harold Gifford (M), and Tom Kneoderis, Right Halfback, Bill Winkler (M), Vincent Hennes (M), Jim Tuckman (M), and Wiley, Left Halfback, Gene Hoffman (M), Bill Rossmoreman (M), and Walter Smith. The letter (M) denotes letterman.

Remember, if you intend to try out for football, spring practice begins March 27.

She: "I'm so discouraged. Everything I do seems to be wrong."  
K.K.: "What are you doing tonight?"

A girl who knows all the answers has been asked all the questions.

Officer: "Are you happy now that you are in the Navy?"  
Boat: "Yes sir."  
Officer: "What were you before you got in the Navy?"  
Boat: "Much happier."

Grand Rapids Room, University of Michigan, Ann Arbor

In Ann Arbor, the Grand Rapids Room on the campus is a favorite student gathering spot. In the Grand Rapids Room—Coca-Cola is the favorite drink. With the college crowd at the University of Michigan, as with every crowd—Coca belongs.

Ask for it either way... both undoubtedly mean the same thing.

Since Sarah Lawrence is without endowment, it means sharing a higher tuition than those institutions that possess capital funds. In most colleges the difference between the amount of money paid in fees and the amount necessary to educate each student is covered by the income from investments. The Sarah Lawrence plan, which

The college is carrying on a scholarship drive led by a student scholarship committee which during the present year must raise an additional \$50,000 to cover awards already made for this year. The student scholarship committee has set itself a goal of \$7,000 to be raised from the students themselves through raffles, a carnival, dance, concerts and other projects. At the end of last year, to show their interest in the financial problems of the college,

Des Moines, Ia. — (L. F.) — Nearly 100 students are taking religion courses under the liberal arts program this year at Drake University, according to Dr. R. H. Pittman, head of the department of religion in the College of Liberal Arts. "Religion is taught like any other course in the field social science. Many students are of the opinion that religion is a kind of Bible study that is a little more sophisticated than regular Sunday school," Dr. Pittman said.

The information that we have about religion can be taught as objectively as any other subject," he holds. Dr. Pittman said that vocational interests are sometimes religion. "The study of the religion aspect of man's life should be definitely a part
